# GENERAL STIPULATIONS FOR CUTTING

# CHRISTMAS TREES ON THE ARIZONA STRIP

- Only pinyon and juniper (cedar) trees may be harvested.
- Cut only in designated areas. (See Map)
- Christmas tree tags must be purchased before cutting trees and tags must be attached to tree before transporting it.
- All vehicles must remain on roadways.
- Cut at least 50 feet from a roadway.
- Cut stumps flush to the ground. Don't leave hazardous stumps sticking up.
- Do not cut tops of trees.
- Christmas tree harvesting is prohibited in designated wilderness areas, wilderness study areas, National Monuments, and other areas as identified.

## TIPS

- Check weather and road conditions. Mountain weather can be unpredictable.
- Carry tools, extra clothing, food, and water for emergency situations.
- Measure room height for tree and measure tree height before you cut. Trees look smaller in the forest.
