# Personal (Household) Special Forest Products Permit Stipulations

## All Forest Products

- Purchaser/permittee agrees to hold the government harmless from any claim for damage or loss of property, personal injury, or death.
- Collection of special forest products is permitted only on BLM-administered land, in areas designated by the contract/permit and map.
- The purchaser/permittee of the contract/permit must be present during the collection and transport of the product and must have the original contract/permit in immediate possession.
- Attach load tickets to the product to be removed before moving between collection sites or leaving the area. Load tickets must be securely attached to the load, and clearly visible from the rear of the vehicle.
- The purchaser/permittee shall suspend all operations upon notification by the authorized officer of any of the following:
    - Discovery of an object or site of cultural value (over 100 years old) on the contract/permit area.
    - Discovery of threatened or endangered plant or animals protected under the Endangered Species Act of 1973.
    - Discovery of a federal candidate, sensitive, or State listed species protected under the BLM manual 6840.
- Collection of special forest products is permitted on BLM-administered land, in areas designated by the contract/permit and map.
- Driving is only approved on existing roads. Park so as not to block traffic. Comply with all road closures. **DO NOT** drive on unsurfaced roads in wet conditions.
- Removal activities are to only occur during daylight hours.
- The purchaser/permittee does not have exclusive right to collection and removal of the product estimated and located on this contract/permit.
- Keep roads, ditches, and streams clear of debris.

## Christmas Trees

- Christmas tree cutting is prohibited inside the Cascade Siskiyou National Monument and south of Highway 66 (west of the Klamath River).
- No tree over twelve (12) feet high will be cut.
- Stumps will be no higher than six (6) inches. This helps to kill the tree, and prevent new, deformed growth.
- Do not cut trees larger than six (6) inches in diameter.
- Do not cut any tree within 300 feet of any campground or stream.
- Do not cut down solitary trees. A solitary tree is defined as any tree that does not have at least two (2) other trees within 20 feet of it.
- No topping of large trees.
- Avoid damage to other trees.
- Limit of three (3) trees per household
