

CEDAR CITY FIELD OFFICE
STIPULATIONS FOR SALE AND HARVEST OF CHRISTMAS TREES
NON-COMMERCIAL

1. Each permittee will harvest trees from specified harvest areas.
2. Location of saleable trees within specified harvest areas is the responsibility of the permittee.
3. Tree species which can be harvested are pinyon pine (single and double leaf) white fir, and Utah juniper.
4. Trees must be cut as close to the ground surface as possible. Stump height must not exceed 6 inches.
5. Only trees under 15 feet tall and a diameter of 8 inches or less can be cut.
6. Trees must be tagged prior to being transported from the harvest areas. The tag must remain on the tree until point of use. Sales contract must accompany trees when being transported.
7. The purchaser will comply with all off-road vehicle designations.

I have read and agree to comply with these stipulations as part of the attached contract
